

Project Description: GEC Aurangabad Annual Fest Invitation Card

Project Title

GEC Aurangabad Annual Fest - Luxury Digital Invitation Card

Objective

To design a luxury-themed digital invitation card for the Annual Fest of Government Engineering College (GEC), Aurangabad, using HTML and CSS. The card aims to provide a visually stunning and elegant presentation of the event details, while also allowing personalization and responsive viewing.

Key Features

- Elegant Layout: A clean, centered card design using luxury tones like black, gold, or deep purple with soft shadows and rounded corners for a premium appearance.
- Shimmering Text Animation: All text is styled with a shimmer effect using CSS animation (@keyframes shimmer) and a linear gradient background clipped to the text.
- Personalized Guest Section: Dynamic section to insert individual guest names, styled prominently with gold underline or glow, giving a VIP experience.
- Responsive Design: Uses flexible units and media queries to ensure the card looks great on desktops, tablets, and mobile screens.
- Typography & Fonts: Uses high-end Google Fonts like Cinzel, Great Vibes, or Playfair Display for a formal and grand look.
- Interactive Touch: Hover effects on elements like buttons (e.g., "RSVP Now" or "Know More") for a modern web experience.
- Footer Details: Includes contact information, social media links, and college logo if needed.

Technologies Used

- HTML5
- CSS3
- Google Fonts

Visual Highlights

Project Description: GEC Aurangabad Annual Fest Invitation Card

- Hero Section with fest name and year in large shimmering gold text.
- Event Details Block showing:
 - Event Name
 - Date & Time
 - Venue
 - Guest name
- shimmer border.

Use Case

- Digital invite for WhatsApp, email, or college website.
- Can be converted into a downloadable PDF or image file using browser print/save tools.
- Suitable for sending personalized invites to chief guests, alumni, and sponsors.

Optional Enhancements

- Add a countdown timer to the fest.
- Add a background music option (muted by default).
- Use JavaScript to generate dynamic content like guest name input.

Conclusion

This project showcases how a simple HTML & CSS setup can be used creatively to deliver a luxurious, animated, and responsive digital invitation card. It combines aesthetic design with smooth animations to create a memorable user experience suitable for prestigious college events like GEC Aurangabad's Annual Fest.
